Ebbtide is a luxury Barbados holiday villa which sits on West Coast beachfront. The property is positioned directly on the beach where the lapping sea helps wash away the stresses of modern living. This wonderful waterfront villa offers an unbeatable beachfront experience. The focal point of this luxury Barbados holiday villa is the impeccable gardens. There is also a dining gazebo which is perched just footsteps from the beach and waters edge. Guests can swim safely directly in front of the villa. The swimming area has no coral, rather just a welcoming sandy entrance to the sea. In addition, the tropical gardens with fresh water plunge pool border this attractive home. Ebbtide is ideal for families with children or friends traveling together. On the lower level is the kitchen, family room and a wide covered seating terrace as well as 2 of the en suite bedrooms.

On the upper level, there are a further 2 bedrooms with high vaulted ceilings and en suite bathrooms.
